Basra, Iraq

Dear Sirs,

We are pleased to have this opportunity to introduce our company Worldwide Turbines LLC, 6770 E Rogers Circle, Boca Raton, Florida 33487 USA.

Worldwide Turbines is the world's foremost Independent gas turbine service company for GG4/FT4 equipment and hot section inspection of GG8/ FT8. With engineering staff having over 300 years of cumulative service in GG4/FT4 works, we have successfully serviced and overhauled over 100 Pratt and Whitney units around the world.

Our qualifications and capabilities include:

Independent Overhaul and Repair Facility
Turbine Repair and Overhaul
Component Repair and Overhaul
Turbine Alignment
Field Services Including Inspections and Audits
Parts Supply
Module Exchange

Module/Engine Repair and Overhaul
Fuel Manifold and Nozzle Overhaul
Accessory Repair and Overhaul
Complete Machine Shop
Engine Testing, Analysis, Troubleshooting
Controls Support
Engine Leasing

Our interest is to be included on the Ministry of Electricity approved vendor list for bids and tenders related to inspection, repair, overhaul and maintenance of Pratt and Whitney GG4/FT4 equipment and hot section inspection, minor repair of GG8/FT8 in partnership with our Iraqi agent Universal Gate – Basra, Iraq.

Our full company brochure is attached for your further reference, and we look forward to your positive response.

Respectively,

Pete LoBello Jr
President
Worldwide Turbines
